The caustic statement of M. d'Ailly de Verneuil, syndic of the Agents de Change de Paris, concerning American financiers, provoked by the news 1494 can financiers, provoked by the news of the Frisco receivership, reminds a 324% Washington banker of a story told him by a prominent New York financier who advocated a large central bank for the United States as a means to solve the monetary question. The one criticism of the financier's central bank plan that caused him to abandon it came from a Bank of England official, he related. The Safest Investments

FINANCIAL

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust actes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not detend upen the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property.
